

Launch and Grow

createMPLS is launching new programs and new sites along with growing relationships with current schools

Remove barriers to accessible technology learning programs by investing in future talent today!

Launching Drones

New drone programs give students a foundation of STEM skills in an engaging and fun program

Cost to run program:

- 50 Students - \$5,000
- 100 Students - \$9,000
- 250 Students - \$20,000

Growing Hydroponics

Hydroponics programs teach students how to incorporate tech in the process of growing healthy food for their community

Cost to run program:

- K-5th class - \$3,000
- 6-8th class - \$6,000
- 9-12th class - \$12,000

Launching at New Schools

Partnering with new host sites and schools allows createMPLS to reach even more students in the greater twin cities

Cost to run program:

- K-5th class - \$10,000
- 9-12th class - \$20,000
- K-8th class - \$30,000
- K-12th class - \$40,000

Growing at Current Schools

Creating scaffolded curriculum, that builds from year to year, most effectively prepares students for future STEM careers

Cost to run program:

- School #1 - \$5,000
- School #2 - 10,000
- School #3 - \$20,000
- School#4 - 35,000
- School #5 - \$50,000
- School #6 - \$60,000
- School #7 - \$70,000
- School #8 - \$90,000
- School #9 - 100,000
